Dr. Steven Sadeghian
US Smoke and Fire

Dear Dr. Sadeghian:

I would like to thank you and your team for the great work on the 1812 North Moore Project in Arlington, VA.

The elevator opening smoke curtains, both within the office tower and between the tower and the connected metro station mezzanine were installed quickly, and functioned without issue. During the difficult coordination efforts between the electrical and fire alarm subcontractors, your team was made available on short notice, which was critical in our attaining the certificate of occupancy.

Your products function well, and your team was knowledgeable, courteous, and responsive. I would recommend your company and crew to anyone in need of smoke curtains.

Thank you again for your hard work.

Sincerely,

A handwritten signature in blue ink, appearing to read "A. Skotnicki". The signature is fluid and cursive, with a large initial "A" and a long, sweeping underline.
