Dr. Steven S. Sadeghian
CEO
U.S. Smoke & Fire Services LLC
Tel: 888.917.8777

Dear Dr. Sadeghian:

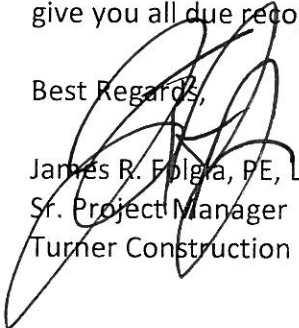

I would like to take this opportunity to recognize the efforts of you, Dr. Steven Sadeghian, on the Princeton Chemistry Project.

Dr. Sadeghian, you successfully started up the smoke curtains at Princeton Chemistry. All are working flawlessly. Steven, you always communicated every detail of progress with Turner's staff. Your vast technical expertise was exceeded only by your tireless efforts on the project to ensure its success. In one particular instance, you offered your technical recommendations on the sequence of operations and range of operation for our smoke curtains when we were having difficulty finalizing the design. These recommendations were ultimately implemented by the architect and engineer of record.

Dr. Sadeghian, you were on hand for critical life safety tests which allowed us to gain our Temporary Certificate of Occupancy.

Dr. Sadeghian, you were always affable, knowledgeable, and dedicated. Folks like you are extremely hard to come by and are invaluable in our industry. Please allow me to give you all due recognition and acclamation.

Best Regards,

James R. Folger, PE, LEED AP
Sr. Project Manager
